

KUUSAMO TO BUILD THE BIGGEST ICE SCULPTURE PARK IN NORDIC COUNTRIES

GRAND OPENING ON 27 NOVEMBER 2019

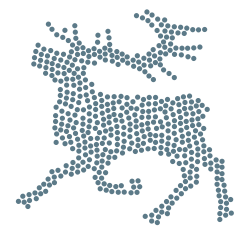

In November 2019, Kuusamo's first ice sculpture park will be constructed in the town centre. The ice sculptures featured in Ice Park Kuusamo will be created on the basis of the winning designs of a drawing contest held for local school children. Every contest entry will also include a story.

The park will also contain a children's snow adventure area, a market for locally manufactured products and fun winter adventures.

The park is free and open 24/7 until March 2020.

ICE MAGIC LTD TO CREATE THE ICE SCULPTURES

The ice sculptures will be created by Anssi Kuosa from IceMagic Ltd with his international team (Finland, Russia, Latvia and Mongolia).
